13-pin

Children should travel as safely and comfortably as possible, for which Volkswagen Genuine Accessories provide the best conditions possible. Our tests go way beyond the statutory safety requirements – the side crash test, for instance, confirms the high quality of the child seat systems. Perfect workmanship, easy handling, removable covers that can be washed at 30 °C – all of this comes as standard.

Bobsy G0 plus ISOFIX

Protection and safety for newborns and infants. The ISOFIX securing system connects the child seat and its frame securely to the bodywork or the front passenger seat. A foot frame provides additional stability and safety. The child seat can be slotted into the ISOFIX mounting and removed from it in a few simple moves, meaning that the frame can be left behind when leaving the vehicle. With the new Bobsy G0 plus ISOFIX, the infant is held safely in the seat by the integrated, height-adjustable 5-point harness straps. The sensitive back of a newborn is protected by the integrated seat insert. Higher side walls and the deep shell provide additional protection. The carry-handle's ergonomically curved

shape is also ingeniously thought-out and enables the baby to be put in and taken out easily. Includes sun shield to protect against direct sunshine. Can also be used in vehicles without ISOFIX connectors but with a 3-point seat belt. For infants of up to 13 kg or approx. 15 months.

Item no. 00V 019 907

Bobsy G0 plus

Set comprises one wind deflector for the right and one for the left window.

Item no. 2E0 072 193

And there's a welcome side-effect: our high-quality accessories also boost the value of your Crafter.

Premium textile footmats

These fabric footmats with highlighted Crafter lettering are perfectly shaped to fit in the footwell of your Crafter, and are made from tough, tightly woven velour. You will find a list of all the available models in the enclosed price list.

Rubber footmats

If things are going to get wet, then the rubber footmat set is recommended. They collect dirt and moisture, which can then be easily removed by washing. These footmats are cut to a perfect fit, and are secured to the floor of the vehicle using twist-studs that prevent them from sliding. Made from low-emission, neutral-odour material. For the front. Includes tunnel mat.
